- Do not swing the object around.
- It may cause QBIC MS-1 and this product to be detached from the object.

### WHAT'S IN THE BOX

## HOW TO USE

### 1. Attach the holder to QBIC MS-1 (Sold separately).

- ① Insert the claws on the holder into the holes on the back of QBIC MS-1.
- ② Then tighten the screw (A) into the tripod thread of QBIC MS-1.

**CAUTION**

- Firmly tighten the screw.

### 2. Attach the mount.

- When using double-sided tape  
Attach the mount using the supplied double-sided tape. Make sure to wipe off water, oil or dirt on the attachment surface in advance.

**CAUTION**

- Do not attach to the rough surface such as wood, skin or cloth.
- There may be residue left on the surface when you try to peel the tape away.
- Do not reuse the tape.

- When using a commercially available screw  
Using a "1/4-20UNC" screw (Length: 6mm or less) available in the market, you can attach to a standard tripod and the like.

**CAUTION**

- Make sure that the screw does not come out of the mount.

- When using the belt mount (※ Use a commercially available belt.)  
Fix the mount and the belt mount using the screw (B).

Width : less than 30mm  
Thickness : less than 2mm

**CAUTION**

- When installing to a place where there is a risk of falling such as a ceiling and a wall surface, put a wire through the security hole and tie it to a secure place. (The wire is not included.)

### 3. Attach QBIC MS-1 to the mount.

Attach the QBIC MS-1 and the holder to the fixed mount.

**CAUTION**

Be careful not to sandwich your fingers at the time of installation / disassembly.

### 4. Remove QBIC MS-1 from the mount.

- ① Press down the lock.
- ② Holding the lock down, slide QBIC MS-1 and the holder backward to remove.

\*Please refer to QBIC instruction manual for shooting information.

Installable device: QBIC MS-1  
※ Do not attach objects other than specified to this products.
