### WHAT'S IN THE BOX

Ring     Lens cover     Screw x 2     O-Ring     Wrench     Instruction Manual

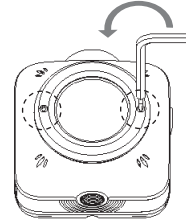

### HOW TO USE

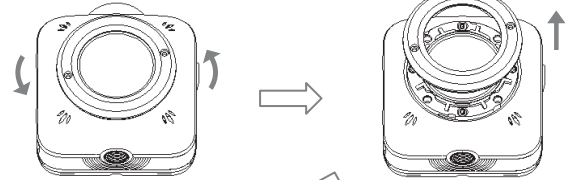

Do not replace the lens cover in places where there is a lot of dust or humidity or there are water splashes. Make sure that your hand, camera, and Lens Cover Replace Kit are clean and free from water, oil and dirt before replacing the lens cover.

#### 1. Remove the lens cover.

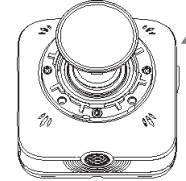

- ① Remove 2 screws on the ring cover using the supplied wrench.

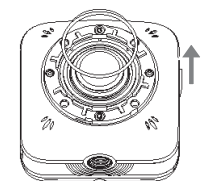

- ② Slightly turn the ring cover counter-clockwise. Then pull it to remove.

- ③ Remove the lens cover.

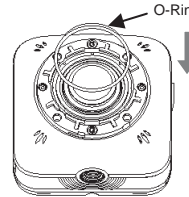

- ④ Remove the O-Ring.

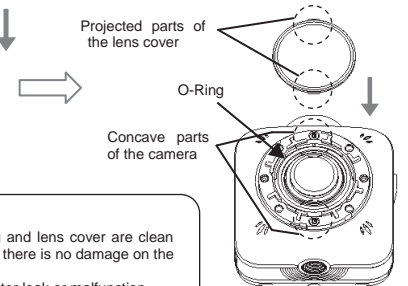

#### 2. Attach the lens cover.

Assemble the parts in the opposite order as disassembly procedure.

- ① Attach the O-Ring.

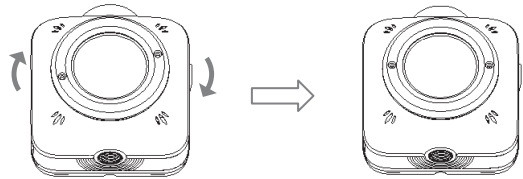

- ② Attach the lens cover, matching the projected parts of the lens cover with the concave parts of the camera.

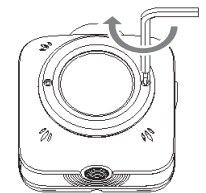

#### CAUTION

Make sure that the O-Ring and lens cover are clean and free from dust and that there is no damage on the O-Ring. Otherwise, it may cause water leak or malfunction.

- ③ Attach the ring cover as shown in the drawing. Then slightly turn it clockwise to fix the position.

- ④ Tighten 2 screws using the supplied wrench.

#### CAUTION

Using damaged or deformed ring cover may cause water leak or malfunction. Be sure to use the supplied new ring cover.
